SUMMARY

Full-stack developer and UI/UX designer with 3+ years of experience building scalable, user-centered digital solutions. I combine clean code, thoughtful design, and modern technologies to create efficient and impactful digital products.

EXPERIENCE

ASCC | FULL STACK DEVELOPER

Jul 2025 - Aug 2025 | Saudi Arabia - Remotely | advancedsystm.com

- Designed, developed, and deployed a complete multi-language company website using Flask as the backend framework.
- Built key pages including About, Contact, Index, Location, Projects, and Services, with support for languages beyond Arabic and English.
- Implemented an admin control panel that allows full content management (add/remove items, update pages, and manage multiple administrator accounts).
- Developed both the front-end and back-end, from prototyping and UI design to database integration and deployment.
- Delivered a fully functional, scalable, and user-friendly web platform ready for production use.
- Ensure responsive design, usability, and scalable architecture.

CIB EGYPT | INTERN

Aug 2025 - Sep 2025 | Egypt - Remotely

- Over 3 weeks, I explored banking, sustainability, and innovation through courses, interactive sessions with CIB mentors, and a SAS digital badge in AI.
